LEGACY LEADERSHIP®

ABOUT LEGACY LEADERSHIP®

Legacy Leadership® has been "in the works" for many years. Its creators, Drs. Lee Smith and Jeannine Sandstrom, have extensive individual, corporate and organizational leadership development experience. Over the years they have been in unique situations to observe the commonalities of successful leaders, and have now refined these reliable and time-honored principles into an intentional, powerful system for success. CoachWorks® International has isolated, defined and made transferable the practices common to leaders who are able to achieve and sustain success – with people, product and revenue.

Legacy Leadership® is beyond most leadership models. It is more than a program. Most others will find a fit within the comprehensive structure of Legacy Leadership®. There are no gimmicks here. The truths and Best Practices of Legacy Leadership® are timeless, proven keys to sustained significance. They form the foundation for real-time legacy in today's business environment.

Legacy Leadership® is based on 5 Best Practices, which are found in all great leaders, whether it's those whose exploits leap from the worn pages of the ancients, or those found among the Fortune 500 leaders of today – and will be found among the leaders of tomorrow. Legacy Leadership® is the wisdom of the ages structured and packaged for the new economy. Legacy Leadership® enables you to live your legacy now and grow the leaders of tomorrow – today. Legacy Leadership® works, because it is directed at the core of what achieves results – the people.

THE 2008 VANCOUVER INSTITUTE

Limitless Leadership Inc. is pleased to offer the Legacy Leadership® Institute and Certification Program in association with CoachWorks® International. The time is right. People are asking for it. People need it. Those who have experienced it are humbled and inspired.

The Institute is highly interactive, filled with stimulating challenges and unique learning opportunities. We believe this Institute will be life-changing as you learn not just another leadership style, but a genuine and proven life system. You will learn the basics and principles of the 5 Best Practices, which are the foundation of Legacy Leadership®, and how to design and implement action plans to measure and grow Legacy Leadership® competencies in personal or organizational environments, and set direction to achieve business results. You will be challenged to evaluate your own Legacy Leadership® potential, and given the blueprint and tools to instill it in others.

WHO SHOULD ATTEND

The Legacy Leadership® Institute is specifically targeted for:

- Managers and executives who want to rise above the mundane and reach for the extraordinary – those who want to be LEGACY Leaders®.
- Internal executive coaches/OD and OB consultants who develop other leaders and would like a comprehensive leadership platform
- External consultants/coaches who are contracted by individuals and organizations to develop leaders and take them to new heights
- Natural leaders who desire to be intentional, purposeful and effective leaders
- Educational Leaders who facilitate staff and student team building and learning

Whether you are a corporate leader, a coach/consultant of leaders & executives, or a leader in education, CoachWorks® has developed a program – a life system – that will significantly change the way you lead, the way to coach others, the way you work and the way you live your life.

THE CREATORS OF LEGACY LEADERSHIP®

Dr. Lee Smith and Dr. Jeannine Sandstrom have been recognized in the leadership development and executive coaching fields for many years as pioneering thought leaders. Together they have provided the industry with needed models and materials for training and development, including many programs still hailed as the cornerstones of executive coaching and leadership training.

Dr. Lee Smith

Dr. Smith is an Executive Leader Coach who has authored numerous coaching programs and assisted in establishing standards and ethics for the coaching profession. Smith is highly skilled in identifying key relational patterns and hidden systems that prevent groups of people from being the best they can be. As barriers are removed, she coaches and guides leaders to reorganize around successful business strategies and to establish new patterns and systems that sustain progress. Dr. Smith regularly presents at national and international professional conferences and has been featured in Newsweek, PBS Specials, and other media. Smith is one of the first internationally credentialed Master Coaches. Her Ph.D. is in Organizational Behavior and Psychology.

Dr. Jeannine Sandstrom

Dr. Sandstrom has been a business owner and international leader coach since 1979. She has focused her leader development coaching in the practical arena

of behavioral contracting, outcome clarification, and strategies to sustain performance excellence. In her 23 years of individual and organizational consulting, Jeannine coached numerous executive leaders and their teams in the high tech, communications, financial and energy industries. Sandstrom has authored coaching materials used extensively throughout the coaching industry. She has been featured on PBS specials, and in The Wall Street Journal and Fortune Magazine. Sandstrom holds certifications as Master Coach and Corporate Business Coach. Her doctorate is in Human Resource Development, and she holds masters degrees in Business Administration and Adult Learning.
